

IN THE CLAIMS

Please amend claims as follows:

1. (Canceled).
2. (Previously presented) A process for ink jet printing on cloth using ultraviolet ray curable ink, which comprises the steps of
 - forming a three-dimensional pattern by repeating the step of applying a transparent ultraviolet ray curable ink and then curing by ultraviolet rays; and
 - applying an ultraviolet ray curable ink containing a coloring component to form a three-dimensional image.
3. (Previously presented) The process for ink jet printing of claim 2, wherein said transparent ultraviolet ray curable ink and said ultraviolet ray curable ink containing a coloring component comprise a reactive oligomer, a reactive diluent and a photoinitiator; said reactive oligomer being contained in an amount of 1 to 70% by weight in said transparent ultraviolet ray curable ink and in an amount of 1 to 60% by weight in said ultraviolet ray curable ink containing a coloring component.
4. (Previously presented) The process for ink jet printing of claim 2, wherein said transparent ultraviolet ray curable ink and said ultraviolet ray curable ink containing a coloring component are heated by a heating means and then discharged.
5. (Canceled)
6. (Canceled)
